

Skippers Hill *Kindergarten*

Opening in April 2012

Skippers Hill Manor
Preparatory School

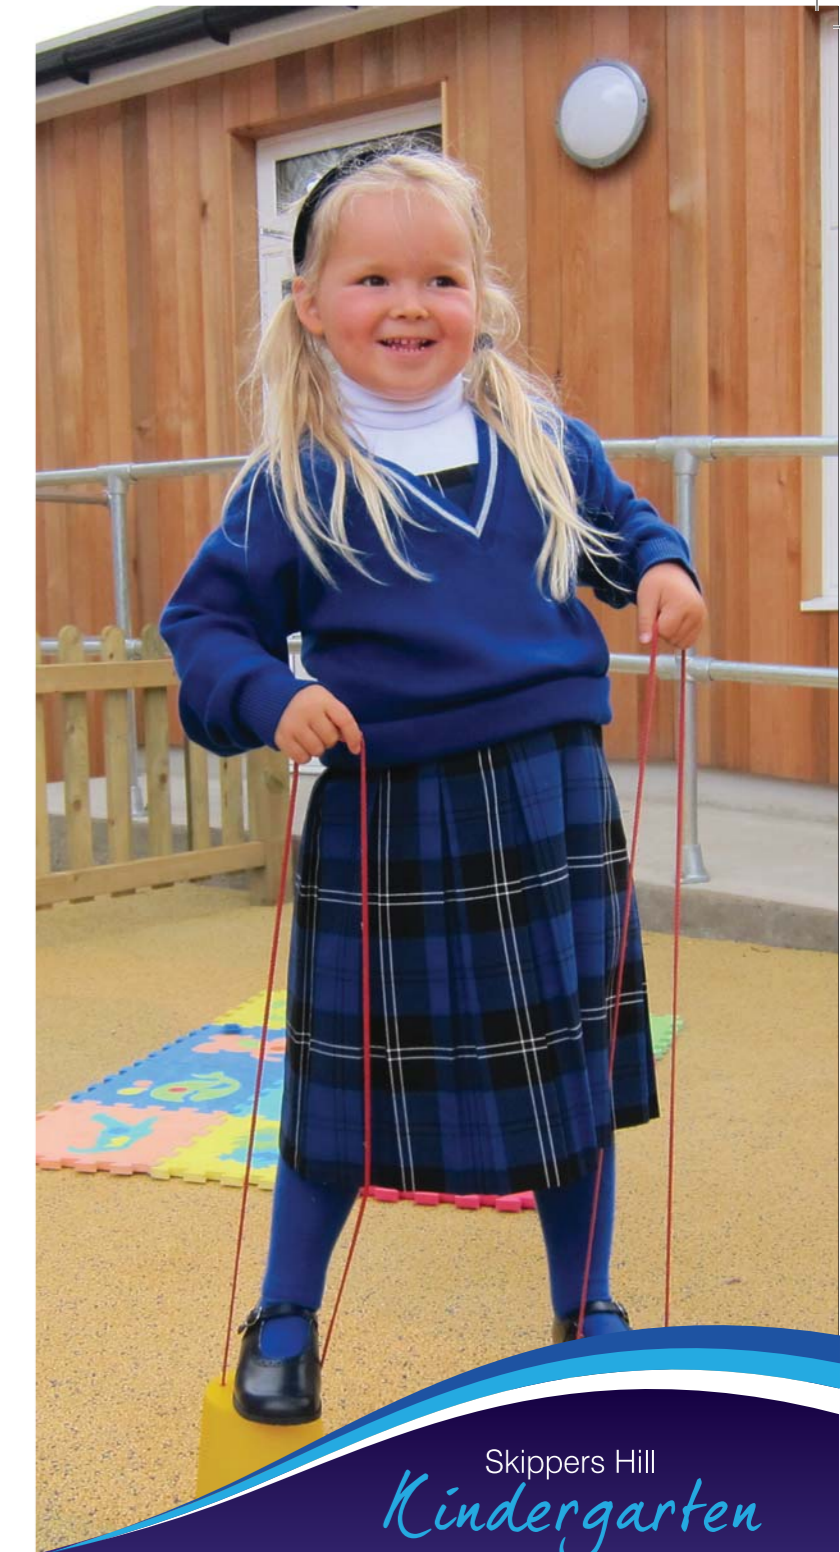

A warm and caring start

Skippers Hill provides a wonderful education for pupils. Children achieve academically but yet are nurtured and recognised for their own unique talents. We are delighted to now extend our school provision for 3 - 4 year olds in our new Kindergarten class.

Kindergarten and Reception classes will be housed in our new and purpose built early years building. The classroom boasts the very latest teaching resources and the children will also benefit from the school's grass fields within its 36 acre site.

Children will be gently introduced to school life whilst establishing solid foundations, helping them to become confident, secure children ready to reach their potential.

Innovative teaching to engage young minds

Teaching staff use innovative and engaging teaching techniques to provide stimulating, fun and happy learning experiences for children. They work with each child to identify their interests and abilities, and to build on them through play. Every child develops at their own pace whilst having fun, making friends and learning.

The children will also enjoy lessons in ICT, Music and P.E.

Close monitoring of each child's development

We follow the Early Years Foundation Stage curriculum covering children's intellectual, creative, physical, emotional and social development.

Every child's achievements are celebrated through individual learning journals which monitor each child's progress and will be shared with parents on a regular basis.

We realise the vital role that home plays in child development and we actively encourage parental involvement.

Stimulating and fun surroundings

Skippers Hill is located in the beautiful and idyllic Sussex Downs. The outdoor adventures open to children are magical. Young children can play and learn in their dedicated playground, grow vegetables in their garden or explore the woodland on a nature walk. Children also benefit from the school's extensive IT facilities, swimming pool, gymnasium and delicious school lunches.
