Assessment Policy

This policy applies all pupils in the school, including in the EYFS

Assessment Policy
Agreed by Head and Governance
Reviewed annually by Head, Deputy Head and Academic Co-ordinators
Date of last review: September 2017
Introduction and Purpose
As professionals, we recognise the need for accurate and rigorous assessment of children’s learning. High quality practice in assessment is the single most effective factor in supporting a child’s progress. By applying rigorous assessment processes consistently, we help children develop a clear understanding of the expectations of learning as they move through the school. We recognise that assessment is a vital element of careful curriculum planning. The purpose of this policy is to make clear the process and expectations for staff at Skippers Hill School.

Roles and responsibilities
Teachers are responsible for:
(i) ensuring that they are familiar with the content of this policy
(ii) the standards for the assessment framework
(iii) the implementation of the assessment framework
(iv) the day to day learning needs of the children which includes ensuring that all lessons have clear learning objectives appropriate to the children’s abilities
(v) monitoring and evaluating the progress of the children they teach and care for, ensuring that the children are aware of what they are intended to learn each lesson, and that they are aware of the purpose of each activity
(vi) use the school’s adopted policy for marking of work and use Pupil Asset as part of ongoing practice to track pupil progress

Subject leaders are responsible for:
(i) providing clarity in the use of the documentation providing the framework of progression
(ii) developing schemes of work which show learning objectives clearly
(iii) ensuring that the monitoring of the cycle and quality of assessment in their area is carried out in and accurate and timely manner, including regular moderation meetings
(iv) tracking the progress of children in their subject and ensuring assessments are appropriate to the age of the children
(v) monitoring the marking of work within a subject and check that it gives sufficient feedback to the children
(vi) monitoring that assessment outcomes are being used for effective planning

Senior leaders are responsible for ensuring that there is:
(i) a clear cycle to ensure that staff are sufficiently trained
(ii) time for subject leaders to monitor the quality and accuracy of assessment in their subject
(iii) analysis of tracking data linking outcomes and areas of development to the school development plan
(iv) providing feedback to subject leaders and teachers about overall progress and the school’s next steps
(v) detailed evaluation about progress against pupil goals

Forms of Assessment
It is critical that wherever assessment is undertaken the emphasis is on ‘Assessment for Learning’ rather than ‘Assessment of Learning’. Assessments should be able to fulfil the various purposes which are decided on by the school and be manageable by the teachers in their workload. Therefore the principle of ‘single input: multiple output’ is important.

FORMATIVE
Assessment for learning is the responsibility of all teachers and is the primary tool used for making judgements about the current proficiency of a learner, the next step needed by the learner and the planning required by them to ensure that progress is made.
Assessment for learning should:
- Inform planning and be annotated on weekly plans
- include strategies to ensure that learners understand the goals they are pursuing and the criteria that will be applied in assessing their work
- Identify the point of learning for children and thus make choices about the concepts they wish to teach children as their next steps, and communicate these intentions to children
- Inform target setting to ensure students are clear about their next steps
- Promote commitment to learning goals by engaging students in understanding how they can improve through use of success criteria
- Motivate learners to improve by providing positive and constructive feedback and allowing opportunities for improvement
- Provide feedback to children as to their next steps thus making learning visible to the children in our schools, as well as to their parents
- Engage students in the setting of personal learning goals
- Develop strategies for self-assessment so that students can become reflective, independent learners
- Create tasks and activities that will support children in advancing their learning
- Allow children to engage in and control the development of their own learning and self-regulate their own steps; the essence of lifelong learning
- Share their observations and experiences with colleagues to improve the impact of their practice as teachers on the learners in their classroom
- Inform Planning for Learning; a teacher’s planning should be flexible to respond to initial and emerging ideas and skills consider the pathways through which each child will access their learning
- Ensure learners should receive constructive guidance about how to improve. Learners need information and guidance in order to plan the next steps in their learning. Teachers should: pinpoint the learner’s strengths and advise on how to develop them, be clear and constructive about any weaknesses and how they might be addressed; provide opportunities for learners to improve upon their work.

**SUMMATIVE**
The means of discovering the proficiency of a student may be both formal and informal. Summative assessment is used to ensure that the relative strengths and weaknesses of the students are accurately and consistently assessed and to enable effective target setting and planning of next steps.

**Informal summative assessment** may take many and varied forms. Some examples include:
- (i) plenary activities
- (ii) spelling /mental maths tests
- (iii) sports or music demonstrations
- (iv) oral discussion
- (v) marking of books/work

**Formal summative assessment** is used at The School in accordance with the assessment schedule in Appendix 1. It includes:
- internal testing at the end of a module / period of learning
- external SATs and 13+ exams

Guidelines on administering Examinations can be found in Appendix 2

**Diagnostic**
Determining knowledge, skills and possible weakness. This includes the use of pre-assessment such as:
● CATs, NFER, PTM and PTE
● internal testing such as spelling/ reading ages, reading, writing and maths assessments prior to embarking on a topic
● Prior to learning taking place in order to identify
  - areas children are secure in and might not need teaching
  - gaps in knowledge that need supporting

Individual Needs
The responsibility for identifying, assessing and monitoring children with special educational needs or who are gifted and talented, is the responsibility of the class teacher in conjunction with the SEND. The SEND and outside agencies are there to support the class teacher in providing a differentiated curriculum in order for the child to achieve their potential. Assessment procedure supports all the aims and practices for the SEN policy in helping each child achieve his/her own potential. Fuller detail on this is covered by policies for SEN and Able and Talented.

Planning and Assessment
Planning and assessment are integral to successful teaching. Planning identifies learning objectives and assessment reveals how far children have acquired learning, which in turn determines future planning. The school curriculum plan is divided into three stages. At each stage of planning, the assessment of children’s progress plays a crucial part in teachers’ decisions about what work to cover next.

The Long Term plan
The long term curriculum plan reflects the aims of the school. It incorporates the statutory requirements of the National Curriculum, and other aspects of curriculum provision. The plan sets out expectations of what children should learn during each key stage, year by year.

The Medium term plan (Scheme of Work)
This gives detail of units of work that will be taught to each class over a term. They identify key objectives for the pitch and range of learning and assessment over the term.

The Short term plan (Weekly plans/ lesson plans)
This is focused on day to day teaching and assessment. It identifies and refines learning objectives in response to individual children’s performance during lessons. They translate learning objectives into activities and assessment opportunities on a daily basis.

Framework for Assessment
Early Years
The school uses Skippers Hill ‘Ready for Reception’ Baseline combined with phonics and mathematical awareness activities to assess Nursery and Reception children as they start at the school. Parents and previous settings are asked to contribute to this. Observations and dialogue with parents/carers are undertaken to identify progress throughout the academic year and this is recorded in an online Learning Journal which records the appropriate age bands that the child is operating within and the corresponding next steps. The Reception profile is completed at the end of the Reception year.

Year 1-6 English, Maths and Science
In order to help teachers make consistent judgements, the school has chosen to use the Bellevue Framework, agreed and developed within the Bellevue schools, which outline clear age-related expectations based on the National Curriculum for:

● English (Reading and Writing, including spelling and grammar)
● Maths
● Science
These steps to success indicate how a pupil in a particular year group is progressing in a specific subject. They provide concrete evidence of performance and relate to specific subject knowledge and skills. They enable teachers to apply the standards consistently, because their judgements must be rooted in evidence.

Year 7-8 English, Maths, Science, Geography, History, French, Latin
Skippers Hill follows the Common Entrance programme to assess pupils’ attainment and progress.

CDS
Skippers Hill use GL assessments digital system to assess potential, attainment, progress and attitudes
- Potential – as shown by the CAT scores, with particular emphasis based on the scores in the first test
- Attainment – as shown by PTE and PTM, as well as the reading and spelling scores
- Progress – as shown in PTE and PTM performance in successive years
- Attitudes – using the PASS pupil survey

RECORDING PROGRESS
The school has clear procedures for recording assessment. They are designed to:
- Ensure that a clear picture of each student’s progress is developed
- Limit administrative burden on staff
- Allow clear communication of progress to the students and their parents

The school will record the progress of each student against age related expectations on Pupil Asset for: Maths, English and Science.

For other subjects a set of age related subject expectations, developed in conjunction with other Bellevue schools will be developed during the academic year 2015/2016 by adapting the criteria laid out by NC 2014.

Methods for the collection and interpretation of data should include the following:-
- Agreed marking procedures that involve the student as much as age allows
- Agreed and informed setting of targets in key subjects
- Observation of work both in and out of the classroom
- Use of the ‘Steps to Success’ assessment sheets in core areas of the curriculum.
- Oral questioning and recording of responses
- Observations of problem solving and specific investigations.
- By application of specific tests

Records and Information passed on from one year group to the next at the end of the Summer Term in the assessment folder:
- Group Lists (Numeracy, Literacy, GGR/Phonics/Spelling)
- Test results
- Support plans (SEN)
- Information on Gifted and Talented pupils
- Steps to Success tracking sheets
- Reading records

Moderation
Prior to inputting data, moderation meetings take place termly on a formal basis in the core subjects. The purpose of these meetings is to:
• ensure consistency both between and across year groups on achievement, this requires all staff to have a thorough understanding of the framework and what constitutes ‘Beginning’ work against ‘Achieved’ work
• support staff in developing high quality formative feedback
• generate professional conversations between class teachers and all levels of leadership
• support staff in developing a thorough understanding of what the different standards of work, for example through regular sharing of expectations in planning meetings and the development of portfolios of exemplar work

Attainment
The following Structure will be used at The School. Pupils will be assessed based on the ‘Key Performance Indicators’ for the year group in which they are learning in the following subjects:

- English (Reading and Writing, including spelling and grammar)
- Maths
- Science – developing in 2015/2016
- Computing - developing in 2015/2016

The terms used to describe a child’s band of attainment within a year will be in line with those on Pupil Asset and the ‘Steps to Success’ tracking document:

<table>
<thead>
<tr>
<th>Exceeding</th>
<th>Achieved</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Within this ‘Achieved’ is the expected band for the end of year attainment, e.g. standard progression within year 4 would be:</td>
</tr>
<tr>
<td>Improving +</td>
<td>4 Beginning, 4 Improving, 4 Achieved.</td>
</tr>
<tr>
<td>Improving</td>
<td></td>
</tr>
<tr>
<td>Beginning +</td>
<td></td>
</tr>
<tr>
<td>Beginning</td>
<td></td>
</tr>
</tbody>
</table>

If a member of staff is seeking to assess a child as attaining a band beyond the year range this would only occur where the child is working at least securely in the year above e.g. a child in Year 4 could not be reported as ‘5 Beginning’ or ‘5 Improving’. In the event this is the case the school should moderate rigorously to ensure this is the appropriate. ta when receiving schools, and indeed at the end of Year 6 transfer to secondary schools.

Judging Attainment
In order to make a judgement about a child’s level of attainment, the following cycle would be typical:

- Teaching subject content
- Tracking using ‘Steps to Success’
- Informal and formal summative assessment

This structure has been chosen as reflecting the pattern used in many other schools (although not the language). This may well help with transferring achievement points and other data

- Moderation of work
- Input of data to Pupil Asset
For each ‘Step’ observed and assessed within the classroom an entry should be entered on the ‘Steps to Success’ ladder; this may be a formative or summative process. A judgement against a performance indicator should be based on three observations. The following allocations can be set against each performance indicator:

<table>
<thead>
<tr>
<th>Attainment</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Exceeding</strong></td>
<td>The pupil has exceeded the expectation on the performance indicator, they are able to use the skills developed to approach a standard that would be identified as being Improving in the year ahead</td>
</tr>
<tr>
<td><strong>Achieved</strong></td>
<td>The pupil fulfils all aspects of the criteria within their work, and is able to apply the concepts confidently and consistently</td>
</tr>
<tr>
<td><strong>Improving</strong></td>
<td>The pupil is successful in meeting some, but not all the criteria within the achievement, or often needs some adult moderation to initiate e.g. Uses the semi-colon, colon and dash to mark the boundary between independent clauses, cannot employ all of these mechanisms</td>
</tr>
<tr>
<td><strong>Beginning</strong></td>
<td>The skills, concept or body of knowledge has been taught but is not applied consistently or appropriately, without adult support; or the child is operating well below the targeted indicator, e.g. knows number bonds to 20, but the child only knows bonds to 10</td>
</tr>
<tr>
<td><strong>Not Achieved</strong></td>
<td>An area that has either not been covered in the curriculum, or in which the child has shown no evidence of the indicator</td>
</tr>
</tbody>
</table>

The thresholds for the different levels of attainment are contained in the table below which gives the weighting attached to each score.

**Weighting attached to each Score (from DNA ticks achieved) in order to calculate an overall percentage.**

<table>
<thead>
<tr>
<th>Minimum Thresholds</th>
<th>Score %</th>
<th>Exceeding</th>
<th>Achieved</th>
<th>Improving</th>
<th>Beginning</th>
<th>Not Achieved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exceeding</td>
<td></td>
<td>15</td>
<td>85</td>
<td>0</td>
<td>0</td>
<td>0</td>
</tr>
<tr>
<td>Achieved</td>
<td></td>
<td>0</td>
<td>85</td>

</tr>
<tr>
<td>Achieved</td>
<td>No Areas Beginning / Not Achieved with 15% Improving with 85% Achieved</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Improving+</td>
<td>No not Achieved, Less than 10% Beginning with 45% Improving* and 45% Achieved</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Improving</td>
<td>No ‘Not Achieved’ with Maximum of 15% Beginning with Minimum 85% Improving*</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Beginning+</td>
<td>Maximum of 75% Beginning with Minimum 25% Improving, NB - for each 1% increase ‘not achieved’ the ‘Improving’ % must increase by 2% to cross the threshold</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Beginning</td>
<td>Minimum 50% of Beginning</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In Pupil Asset staff will need to use the DNA ticks section within Pupil Asset to allocate a grade, with reference to the table above.

Pupil Asset
Movement from one score to the next score in the system e.g. from Dev to Dev+, represents a one point progression. The expectation is for two points of progress in each term, six across the course of the year.

Supplementing judgements with other forms of evidence
The school also uses other sources of data to ensure that pupils’ relative strengths and weaknesses are accurately and consistently assessed. These include
- cognitive ability tests to compare the strengths of pupils within particular year groups
- spelling and reading age tests
- subject related tests which give an age score

These do not provide a comprehensive view of any given pupil's strengths, but is another form of evidence that can help inform professional judgement.

Monitoring and review of assessments
Leaders, managers and teachers are responsible for the monitoring and review of assessment processes and data. The monitoring timetable will include:
- Work and marking scrutiny by the subject leaders
- Lesson observation of teachers
- Moderation within a subject or department
- Moderation between schools and Local Authorities where possible or available
- Moderation of English and Maths standards across departments, subject areas and phases
- Line-management meetings between subject leaders, senior leaders and the Head
- Termly reviews with the School’s Director
- Review meetings with staff from other schools

Data reviews will consider:
- Levels of Progress and Achievement for different groups
- Differences between target Progress and Achievement
Reasons for greater than expected progress

Target Setting
Target setting supports assessment by:
- Providing learners with clear goals and next steps
- Ensuring clarity in expectations for the next time period
- Establishing a focus for planning, differentiating and resourcing lessons
- Enabling recognition of each child on their achievements

Fulfilling Targets
- Marking of children’s work reflects progress towards targets and independent work that achieves the target is highlighted. A target is deemed to have been achieved if three pieces of independent work on separate dates show achievement of the target.
- Assessment of progress against targets involves a range of strategies including teacher, peer and pupil self-assessment. These progressive achievements of pieces of independent work that meet the target are also recorded graphically on the Learning Wall, motivating pupils to reach the next step.

Reporting Assessment
The reporting of assessment is contained in the table below - see Appendix 1

Reporting Progress and Achievement to Parents
In reporting achievement, the following scale will be used within each year, these parallel the descriptions for progress used internally
- Beginning
- Improving
- Achieved
- Exceeding

In reporting progress the following scale will be used:
- Working towards year goal
- Working at year goal
- Working above year goal

In addition, the following information will be reported upon at different stages:
- Behaviour and Effort
- Reading and spelling age
- Cognitive Ability Scores
- Expected Target

Tracking Progress
The School will need entry point data to establish the capability of a child on starting the school whatever age they join. The purpose of this is to identify the future potential of a child to ensure that their individual progression is effectively identified. Data used as benchmarking includes:
- Early Excellence – this needs to be used by all schools
- Prior attainment
- Standardised testing data e.g. PIPS, CATS, NFER VR, or INCAS (the scores can be converted into an age level, or used to derive a prediction for future attainment

The School will use the benchmark to create end of Phase Targets.
Reviewing this Policy
This policy will be reviewed annually at group level, incorporating feedback from leaders around the schools through the June Heads Management Meeting

Appendix 2 - Arrangements for Examinations

Guidelines for Exams and Assessments

- Teachers must follow the agreed assessment schedule (Appendix 1)
- Teachers are responsible for making sure the necessary assessments are ordered and for reproducing any assessment material

Prior to an examination, teachers should:

- Give the pupils a revision list and allow enough time for revision, bearing in mind the busy schedule many of our pupils are committed to at certain times of the year
- Try and inform both parents and pupils of exam dates and again, allow ample time
- Familiarise themselves with the content of the assessment and the administrative procedures

During the assessment

- Allow ample time for the assessment. Remember certain pupils are allowed extra time and also the purpose of the assessment is to test what the child knows - it may be very unfair to penalise a child for running out of time
- Insist on silence and arrange seating suitably. Make sure that pupils are aware that if they have a problem they must put up their hand.
- Be aware that some children will be frightened or embarrassed to ask for help and therefore keep an eye on whether they are coping.
- Encourage pupils to check their work if they have finished – there is nothing wrong in pointing out to them that they have left gaps

After the assessment:

- Allow ample time after the assessment period to mark the papers and write any reports/ give feedback to children and parents.
- Do not give out marks until the agreed date
- Do not read marks out loud to the class
- Do go over the papers so that the children learn from their mistakes
- Do try and encourage any individual that has not done particularly well or is disappointed
- Ensure that marks are recorded in the assessment area on Google Drive/Teacher Share - any outstanding performances or areas for concern highlighted
- Highlight unexpected performances for discussion at Staff Meeting
- Use results for future planning - both whole class planning and individual target setting.
